PERSONAL JOTTINGS.

Sitting Bull charges \$5 for his autograph.

Joaquin Miller's penmanship is what makes the angels weep.

Meisner will paint the portrait of ex-Governor Stanford of California.

General Robert C. Schenck, racked with pain, spends most of his time upon a sick bed.

Patti thinks \$20 a seat will be a fair price to hear her sing in concert this fall and winter.

Lewis Clark, the original "George Harris" in Uncle Tom's Cabin, is lecturing in the Bluegrass region for ten cents a head.

Peter Cooper has spent \$1,500,000 on the Cooper Institute in New York, and will put \$80,000 more into it this year.

Prince Bismarck, who was a student friend of Motley's, is reported to have written an autograph letter to Mrs. Garfield.

Hannibal Hamlin has had his portrait painted. He has a heroic attitude, and seems to be saying: "Death to rats!"

Professor Huxley, the English scientist, makes \$150,000 a year from his various offices in Government and educational institutions.

Ex-President Hayes is expected in London in October. Mr. Hayes in his Ohio home is said to be as comfortable and happy as a man can be. He entertains a great deal of company.

Kosuth still lives a life of retirement near Turin. Though 78 years old last April he retains his extraordinary powers of work with his pen.

Singular Vengeance.

A colored gentleman living near Jesup, Ga., missing a watermelon from his patch, immediately set out upon the track of the thief and soon came upon him—a man about his own size and weight—preparing to eat the melon, whereupon he told him to lay himself upon the ground and submit to a good thrashing, or he would cut his throat. The thief obeyed, and the owner cut three or four black gums and wore them to a "fraz" on the back of the thief, while he uttered screams that might be heard for half a mile.

"Now," said the owner, "take that melon and march right through Jesup ahead of me or I'll kill you." They started, but meeting some of the neighbors, attracted by the cries of distress, the owner was persuaded that he had sufficiently punished the offender, and was advised to let him go, which he did, and returned to his home. The thief did not go far before he sat down and ate the melon.

Telegraph Wires in Flames.

Just after an unusually heavy flash of lightning during the storm on Sunday evening about thirty wires running into the main office of the Western Union Telegraph company were suddenly enveloped in flames. They had been "struck" by the electricity in the atmosphere and the rubber insulating coating of each wire burned like paper, rendering the wires useless. For a moment everybody was startled, but the cooler ones soon recovered, and by cutting the wires prevented any further damage from being done. It took all night to put the thirty wires in working order again.

Rescued From Death.

William J. Connelley, of Somerville, Mass., says: In the fall of 1876 I was taken with a severe cold, followed by a severe cough, I lost my appetite and sleep, and was confined to my bed. In 1877 I was admitted to the Hospital. The doctors said I had a hole in my lung as big as a half dollar. At one time a report went around that I was dead. I gave up hope, but a friend told me of DR. WILLIAM HALL'S BALM FOR THE LUNGS. I got a bottle, when to my surprise, I commenced to feel better, and to-day I feel better than for three years past. I write this hoping every one afflicted with this disease will take DR. WILLIAM HALL'S BALM FOR THE LUNGS, and be convinced that CONSUMPTION CAN BE CURED. I can positively say it has done more good than all the other medicines I have taken since my sickness.

Letter from an Eminent Naval Surgeon U. S. "Athena," March 14, 1879.—California Porous Plaster Company Gentlemen: Please send on board, at Mare Island, 6 dozen California Pine and Eucalyptus Porous Plasters. I believe them to be the best made. H. SIEGFRIED M.D., U. S. Navy.

PENNY WISE AND POUND FOOLISH.

The Austin *Reveille*, in an article on the necessity of procuring Government title to mines says: Many prospectors do not realize the necessity of procuring a patent on their mines before knowing them to be of great value, as a certain preventative of any further litigation in regard to the matter. Thus many work away till they find good pay dirt, and when their claim is known to be really of value and the owners proceed to patent it, claimants spring up on every side and a long litigation begins, which results in, if not the loss of property, so much expense as to swallow up the profits for a long period. These false claimants, by the use of money or some technicality of law, or in some instances pure cheek, can establish such a hold as is very difficult to shake off, as many have found to their sorrow. The only way to prevent, to a certainty, any such outcome is to have the patent procured at so early a stage of development that no one will have any reason or excuse for interference. Then the properties can be worked and the owners feel perfect security in its possession, whatever happens. Should it prove a bonanza, they have a perfect title. On the other hand, if it proves worthless, the loss is comparatively trifling.

STILL HOPEFUL.

We are very glad to be able to contradict the story that was circulated on the streets this afternoon that President Garfield was dead. The word went around as 12 o'clock that he was dying, and at 2 o'clock it was freely stated that he was dead. The story was more generally believed because of the very bad turn he had yesterday. He vomited considerably Saturday night, and yesterday his mother and other friends were sent for. He still is very low, and the most hopeful can only say that they do not give him up. It is thought that the swollen gland in his neck will suppurate, and if so, that will give him some relief.

EDITORIAL NOTES.

The work of the Secretaries and Clerks at the Executive Mansion has not abated at all during the President's illness, but the character of it is entirely changed. While there is no mail for the President, that for Mrs. Garfield has grown as large as the official mail used to be. This has to be assorted, briefed and filed, and replies have to be written to many of them. Hundreds of letters expressing sympathy, or offering assistance in some way or other, are received every day.

A Norwich couple, who had a pet cat which had grown helpless from age and extremely fat, put it out of its misery by the agency of chloroform. They buried it in the garden and planted a rosebush over its remains. The next morning it appeared at the door to be let in, and had the rosebush under its arm.

The author of the above is entered for Ben Bacon's special premium for the best off-hand liar.

It is now shown that "Billy the Kid," lately killed by Pat Garrett, Sheriff of Lincoln county, New Mexico, was a much maligned man. One Donan, who knew him well, writes to the *St. Louis Globe-Democrat* full particulars of his career. These show that "the Kid" had murdered only eleven persons instead of twenty-one charged to him. It begins to look as if Garrett had no right to shoot Billy.

The Eureka *Leader* now virtually endorses the *Gazette's* position on State Finances, and goes to the length of recommending a new constitution to cut off heads and reduce expenses.

We publish a few suggestive facts in regard to branding cattle, in another column. Cattle men must make quite large losses by their practice in this respect.

The assessment on Bullion is delinquent to-day, and assessments of 30 cents on Con. Virginia and 10 cents on Imperial were levied to-day.

The corner stone of the asylum will be laid on Saturday next by the Grand Lodge of Masons. A train will be run down to the grounds to accommodate spectators.

Very grateful: The man who was taken into the County Hospital and cured of erysipelas at the end of two weeks, stole a coat, two pair of blankets and a spread, just for luck. He was caught with the coat on his back, and pleaded guilty to stealing that, but not the blankets.

BASE BRANDING.

Cutting and Castrating Cattle Causing Considerable Cattle.

Cattlemen estimate that there is an annual loss to the State of Nevada of a hundred thousand dollars by the branding of cattle and horses. The hide is so badly cut up and seared that a loss of from 50 cents to a dollar a piece is incurred. Old marks cost the hide about four bits, and fresh burns that have not yet healed are at least a dollar's damage. If a brand is laid on the animals ribs it spoils a whole side of leather, and yet it is done by a great many intelligent stock men. They say they can see it further. There has got to be such a mixture of herds in this State that a man has to nearly murder a "critter" in order to mark it so as to be able to hold it. There is so much buying and selling, so much driving of bands from Oregon Mexico and Texas that confusion worse confounded seems to reign. It is

NOT AN UNFREQUENT THING

for cattle dealers to have bands on their ranches coming from half a dozen different places, and when they come to add their own brands to those inflicted when the brutes were yearlings the animals look like Japanese puzzles. It used to be considered sufficient to use an iron with a double letter or some character for each owner. This was registered with the county recorder, and was well known all over the State. Some would have an ear mark others a dew lap, and so on. Now almost everybody has a branding iron of some sort, and all the other marks too. A GAZETTE reporter saw last week on a ranch in Elko county, a cow that had a big brand on the hip, another on the ribs one ear was cut so that a strip hung down and a point stuck up, and another section maintained its original position at right angles to the horn. The other ear had a slit the whole length of it. An iron had burned into the shoulder some time in the youth of the animal. A dew lap the size of a small carpet sack hung down in front from the throat, and a chunk of skin had been cut out of the cheek and hung down beside the jaw. The countdrum suggested itself where the next man who owned her would get in his branding iron or knife.

Tell Your Friends of Ammen's Cough Syrup.

When any druggist or dealer tries to sell you, or tells you that some other remedy is as good or better, when you ask for Ammen's Cough Syrup, look him in the face, and you will see that God has stamped upon his countenance in unmistakable character, the word cupid, and by investigation you will find he is recommending some decoction of his own that costs him only a few cents to prepare, or some patent remedy upon which he makes a larger profit. Ask for Ammen's Cough Syrup. Take no other. Buy a 15 cent or 50 cent bottle. Test it yourself. It stands upon its merits.

Bad Luck Overtook Him.

G. W. Colby, President of the Grangers bank, died in San Francisco yesterday. He was the victim of bad luck. Two years ago he lost his wife by sudden sickness. He married again, and had a shooting scrape with some one, about a slanderous story and was held under bail. His second wife died and he was arrested for foul play. He died from brain disease. He was a large land owner and a prominent man.

New Mines Everywhere.

E. W. Taylor called at the GAZETTE office this morning and left a couple of nice looking pieces of rock from the Irby Holt mine in Indian valley. F. P. Ingalls is owner of the claim, and he is shipping 5,000 pounds to San Francisco to be worked. He is down ten feet and has ore that goes a thousand dollars to the ton.

Singing Class.

Scholars for the singing class held Tuesday evenings under the direction of Prof. Stimson will be received only this week and next. It is desirable that the whole class shall begin at the first, and be present at every meeting. Upwards of 50 have now united with the class and it promises a great success.

Hay Burned.

Three large stacks of hay were burned Saturday night. They were insured with the First National Bank for \$1,000 or over. There was 212 tons of hay, valued at \$5 a ton. It belonged to Robert McTaggart, on the old Gates ranch.

A LAND LORD.

Nevada Claims for a Citizen the Largest Private Land Owner in America.

Col. Dan Murphy, of Halleck Station, Elko county, came to California in 1844, and may be said to have made the country pay him well for his time. He is now probably the largest private land owner on this continent. He has 4,000,000 acres of land in one body in Mexico, 60,000 in Nevada and 23,000 in California. His Mexican grant he bought 4 years ago for \$200,000 cash, or 5 cents an acre. It is 60 miles long and covers a beautiful country, of hill and valley, pine timber and meadow land. It comes within 12 miles of the city of Durango, which is to be a station on the Mexican Central. Mr. Murphy raises wheat on his California land and cattle on that in Nevada. He got 55,000 sacks last year, and ships 6,000 head of cattle a year right along. A GAZETTE reporter asked him what he would do if he could sell all his land for a dollar an acre. He answered "buy cattle."

Things at the Banner Mill.

W. D. Robertson, of the Banner Mill, is in town. He says the mills are running nicely. There is considerable quail and grouse between the mill and Independence. Mr. Penman, of the Lake, killed three deer last week. There are some bear between Webber and Independence. Fine fishing in the lake and Prosser Creek. A few land-locked salmon are being caught. The Banner mill will cut about 40,000 ties this season. They are putting in chutes to haul logs on, instead of oxen. They have three chutes now, and put in 100 logs a day with three teams, hauling them all the way from a half a mile to a mile and a quarter. It is much cheaper and safer. It costs about \$3 50 a thousand to put the logs in the pond. They cut on an average 40,000 feet a day, which is a big run. The mill and engine are first-class.

The Very Man.

Prof. Butts is proud of his class of fifty scholars. He says Reno has a bright lot of children. He shows samples of their writing ten days ago when he first began to teach them, and now, and the improvement is very great. If any of the children had been away at Mills' Seminary or the University for a couple of years, and had improved as much in penmanship as they have in his school, everyone would be well satisfied. No one could do better than Prof. Butts. He has spent many years in the business, and understands it thoroughly. He is a kind, fatherly gentleman, of over 73. Years have not shaken his nerves, however, and he writes a neat and artistic hand in all the different styles.

Sea Lions and Such.

Captain Mullett, the noted wild animal merchant, went East on the overland this morning. He had for companions eight live sea lions, three California lions, two African lions, beside a lot of wild birds. They ride in the express car, and still the messenger is not happy. He says he has not been so homesick for a long time. Captain Mullett goes East this time to make his home. He will live in Chicago. His business has got so large that he finds it necessary to stay East all the time, while his men out here pick up his prizes.

Fan Ahead.

The Josselyn troupe have engaged the Nevada Theatre for Nov. 16th. They expected to be here on the 18th, but have changed it to the 16th. Robert McWade will be here fair week. C. R. Bacon, theatrical man, says the Melville troupe will come this way in a few weeks with 33 people. They have better singers than when they came through before, and will stop here. This is good news for everybody.

A Good Medicine.

The famous Hostetter's Bitters has had a success equalled by very few remedies. It is so successful because its excellence is constantly sustained in all the materials and processes of manufacture. It should be in every family, especially in thinly settled countries, where doctors are scarce. See the card under new to-day.

Masonic.

The members of Tono Lodge No. 13, F. & A. M., are requested (and solemnly brethren in good standing are cordially invited) to meet at Masonic Hall, Reno Nevada, on Saturday, August 27th, at 10 o'clock A. M., sharp, for the purpose of visiting the M. W. Grand Lodge of Nevada in laying the corner stone of the Nevada Insane Asylum. By order of the W. M.

Truthful Tourists.

Dr. Dawson and Hon. C. S. Varian returned on Saturday from their trip north. They went to Susanville, Big Meadows and Greenville. In Big Meadows there is a camp of excursionists from California every 300 yards. They had fine fishing and hunting, big bugs and mosquitoes. All their rattlesnake medicine was used at Flournoys, where they struck a regular den and could not count them. The fruit crop will be immense up north.

Church Calendar.

This is the Calendar for the week ending August 27th: Sunday—Eleventh Sunday after Pentecost. Monday—Octave of the Assumption. Tuesday—St. Philip Beniti, Confessor. Wednesday—St. Bartholomew, Apostle. Thursday—St. Louis IX, King of France, Confessor. Friday—St. Jane Frances de Chantal, Widow. Saturday—St. Joseph Calasancius, Confessor.

Nearly a Fire.

Henry Johnson was not made in vain. He saved the Glendale bridge from fire yesterday. He was down there on a pleasure drive, and in crossing the bridge saw a little blaze between two boards in the floor. A stiff breeze was blowing and before the next man would have crossed it would have been past saving. Henry drove back and told Louie Dean, who put it out with a bucket of water.

Northern Notes.

Valuation of Lassen county property for 1881 is \$1,215,358. Peaches are just beginning to ripen at Susanville.

A New Remedy.

Anakasis is a reliable remedy for piles. It is sold by all druggists at a dollar a bottle. See advertisement.

BY TELEGRAPH.

The President Better. Special to the Gazette.

WASHINGTON, August 22, 2:10 P. M. The President is passing a quiet afternoon. He sleeps a good deal. Up to the present hour he has swallowed and retained twenty-two ounces of liquid nourishment, consisting of milk porridge and koumiss. No new unfavorable symptoms have appeared, and the general condition is about the same. The doctors seem to feel some encouraged to day, but he is still in a very critical condition.

Corner Stone.

Cured of Drinking.

"A young friend of mine was cured of an insatiable thirst for liquor, which had so prostrated him that he was unable to do any business. He was entirely cured by the use of Hop Bitters. It allayed all that burning thirst. It took away the appetite for liquor, it made his nerves steady, and he has remained a sober and steady man for more than two years, and has no desire to return to his cups. I know of a number of others that have been cured of drinking by it."—From a leading Dr. H. Official Chicago, Ill.
